Download LSOG Application on:
It gives me a great pleasure on the behalf of the Lebanese Society of Obstetrics and Gynecology (LSOG) to welcome you to the 21st Annual Meeting of the society that will be held at Habtoor Hotel, Beirut, November 9 – 11, 2017.

This year, the meeting will focus on the best practices in women’s health and will raise the challenge whether it is “Time to Change”. New guidelines, new evidence-based research, and new technologies are shaping our daily practice and management of our patients. All of this will be discussed in plenary sessions, debates, seminars, and workshops.

In this regard, the Scientific Committee has worked hard on creating an exciting and outstanding program that will cover all the subspecialties. Hot topics in maternal health, fetal health, minimal invasive surgery, oncology, reproductive endocrinology and infertility will be discussed. In addition, four precongress state-of-the-art workshops will be given including live laparoscopic surgery. All of this will be delivered by world known brilliant speakers and leaders in their fields.

It is also of great pleasure we announce that in preparation for LSOG 2017, our society is collaborating with two prestigious societies: Le Collège National des Gynécologues et Obstétriciens Français (CNGOF), and the Federation of Arab Gynecology and Obstetrics Societies (FAGOS).

Over the past 20 years, the LSOG Annual Meeting has grown to reach international standards and became the most important and successful obstetrics and gynecology meeting in the region. I, therefore, invite you to be part of this international event, and to take the opportunity to meet old friends, make new ones, and enjoy our vibrant city.

Antoine Abu Musa, MD, PhD
President, Lebanese Society of Obstetrics and Gynecology
Board and Committees

**Executive Board**
Antoine Abu Musa MD, PHD - President
Saadeddine Itani MD - President Elect
Ramzi Finan MD - Treasurer
Abdel Nasser Abou Khalil MD, PHD - General Secretary
David Atallah MD - Board member
Jihad Farhat MD - Board member
Fadi Mirza MD, FACOG - Board member
Rana Skaf MD, FACOG - Board member
George Wehbe MD - Board member

**Organizing Committee**
Saadeddine Itani - Chair
Aline Abi Sleiman
Imad Abou Jaoude
Abdel Nasser Abou Khalil
Elie Attieh
Nazira Azize
Farid Badran
Marwan Barbir
Jihad El Hassan
Ghassan Hajj
Antoine Hannoun
Mohammad Hasbini
Salah Jurdi
Nadine Kassis
Georges Kehdy
Mustafa Khalifeh
Salah Malas
Jean Nassar
Karim Nawfal
Walid Saheb
Johnny Seoud
Ahmad Sraj
Georges Yared

**Scientific Committee**
Fadi Mirza - Chair
Rana Skaf - Co-Chair
Abdallah Adra
David Atallah
Paul Barakat
Rabih Chahine
Toufic Eid
Faysal El Kak
Jihad Ezzedine
Jihad Farhat
Stephanie Fellas
Lara Haidar
Jawdat Kassir
Joseph Nassif
Muhieddine Seoud
Tony Zreik

**Coordinator of the Congress**
Saadeddine Itani MD
International Speakers

Hisham Arab  
Deputy Secretary General, World Association of Perinatal Medicine  
Chairman, Arab Maternal Fetal Medicine Expert Group  
at FAGOS  
Director, Ian Donald Ultrasound School branch in Jeddah  
KSA

Mazen Bishtawi  
Head of Gynecological Oncology  
Jordan University Hospital  
Amman, Jordan

Alan Cameron  
Professor  
Royal College of Obstetricians and Gynaecologists  
Glasgow, UK

Elias Dahdouh  
Professor  
Division of Reproductive Endocrinology & Infertility  
University of Montreal  
Montreal, Canada

Philippe Descamps  
Professeur and Coordonnateur, Gynécologie obstétrique  
Centre Hospitalier Universitaire  
Angers, France

Karim El Masry  
Head, Department of Obstetrics and Gynecology  
AL Noor Hospitals  
Abu Dhabi, UAE

Peter Humaidan  
Professor of Reproductive Endocrinology and Infertility  
Aarhus University  
Aarhus, Denmark

Philippe Jeanty  
Medical Director of Inner Vision Women’s Ultrasound  
Nashville, TN, USA

Gilles Kayem  
Hôpital Trousseau, APHP  
Université Pierre et Marie Curie  
Paris, France

Philippe Koninckx  
Professor OBGYN  
University Leuven  
Belgium
**Wesam Kurdi**  
Head, Section of Maternal Fetal Medicine  
Department of Obstetrics & Gynecology  
King Faisal Specialist Hospital and Research Centre  
Riyadh, KSA

**William Kutteh**  
Professor, Vanderbilt University Medical Center  
Fertility Associates of Memphis  
Director of Fertility Preservation, Saint Jude’s Children’s Research Hospital  
Memphis, Tennessee, USA

**Bruno Langer**  
Professeur  
Chef du Pôle de Gynécologie-Obstétrique  
Hôpital de Hautepierre  
Strasbourg, France

**Guillaume Legendre**  
Chef de Clinique  
Centre Hospitalier Universitaire  
Angers, France

**Adnan Munkarah**  
Chairman of Women’s Health and Chief Medical Officer  
Henry Ford Hospital and Health Network  
Detroit, USA

**Julian Robinson**  
Chief of Obstetrics  
Brigham and Women’s Hospital/Harvard Medical School  
Boston, Massachusetts, USA

**Steve Thornton**  
Professor, Executive Dean, and Vice Principal for Health  
Barts and the London School of Medicine  
UK

**Prof. Dr. Hans-Rudolf Paul Tinneberg**  
Director of Women Clinic, Department of Obstetrics and Gynecology  
University of Giessen and Marburg GmbH  
Giessen, Germany

**Anastasia Ussia**  
Italo-Belgian group coordinator advanced laparoscopic surgery  
Villa del Rosario Hospital and Catholic University  
Rome, Italy

**Arnaud Wattiez**  
Professor, University of Strasbourg, Strasbourg, France  
Head of Gynecology, Latifa Hospital  
Dubai, UAE
**Thursday, November 9th, 2017**

**08:00 - 09:00**  Pre-Congress and Congress Registration

**Pre-Congress Course**

**09:00 - 13:00**  Recurrent Pregnancy Loss: Dissecting the Controversies (Hall E, Convention Center - 3rd Floor)

**Description:**
Recurrent pregnancy loss (RPL) affects 2-5% couples of reproductive age. This condition is challenging for both patients and doctors, as 25-50% of couples have no definitive etiology and thus no proven treatment.

This course will discuss the current trends in the diagnosis and treatment of recurrent pregnancy loss. Genetic testing of the products of conception by complete chromosome analysis and the ability to identify maternal cell contamination have increased our awareness of the role of aneuploidy as a cause of RPL. This increasing influence and the role of genetic testing in developing a strategy for the evaluation of recurrent pregnancy loss will be described and discussed.

**Learning Objectives:**
At the conclusion of this course, each participant should be able to discuss and explain:
1. How many losses are needed to make the diagnosis
2. What counts as a pregnancy loss
3. What constitutes a current full workup
4. What is the prognosis for a live birth
5. What are the treatment approaches for patients with RPL
6. What is the potential role that preimplantation genetic testing and immune therapy may play in the management of RPL
Faculty:
Peter Humaidan (Denmark)
Elias Dahdouh (Canada)
William Kutteh (USA)
Fadi Mirza (Lebanon)
Tony Zreik (Lebanon)

Course Directors:
Elias Dahdouh (Canada)
William Kutteh (USA)

Program:
09:00 - 09:20  Overview of Diagnosis and New Algorithm for RPL  William Kutteh
09:20 - 09:40  Endocrine Factors in RPL  Elias Dahdouh
09:40 - 10:00  Uterine Factors in RPL: Congenital and Acquired  Tony Zreik
10:00 - 10:20  Immune Factors: From Antiphospholipid Syndrome to IVIG  William Kutteh
10:20 - 10:30  Discussion
10:30 - 11:00  Coffee Break
11:00 - 11:20  Management of Unexplained RPL: What Works and What Doesn’t?  Fadi Mirza
11:20 - 11:40  Management of Recurrent Implantation Failure (RIF)  Peter Humaidan
11:40 - 12:00  Preimplantation Genetics for RPL and RIF: Any Evidence?  Elias Dahdouh
12:00 - 12:30  Case Presentations  All speakers and attendees
Pre-Congress Course
09:00 - 13:00  The Fetal Organ Scan (Hall D, Convention Center - 3rd Floor)

Description:
The Fetal organ scan is the most important screening exam during pregnancy. It is usually performed at 18-23 weeks of gestation & allows for in-utero detection of up to 90% of fetal malformations. The ultrasonographic detection rate of a particular congenital malformation is mostly dependent, among other factors, on the skills and experience of the sonologist performing the exam.

Learning Objectives:
1. Review the normal developmental anatomy of the fetal brain, heart, skeleton, gastro-intestinal and genito-urinary tract system
2. Become familiar with the sonographic diagnosis of specific fetal malformations related to the above mentioned systems
3. Discuss the challenging diagnosis & management of fetal tumors

Course Directors:
Philippe Jeanty (USA)
Abdallah Adra (Lebanon)

Faculty:
Abdallah Adra (Lebanon)
Hicham Arab (KSA)
Philippe Jeanty (USA)

Program:
09:00 - 09:30  Brain and Spine Philippe Jeanty
09:30 - 10:00  Genito-Urinary Hicham Arab
10:00 - 10:30  Skeleton Philippe Jeanty
10:30 - 10:45  Coffee Break
10:45 - 11:15  Fetal Tumors Philippe Jeanty
11:15 - 11:45  Gastrointestinal & Abdominal Wall Abdallah Adra
11:45 - 12:15  Heart Philippe Jeanty
12:15 - 12:45  Post-Test with Interactive Clinical Cases Abdallah Adra
12:45  Adjourn
Pre-Congress Course

09:00 - 13:00 Female Sexual Dysfunction: A Prime for the Gynecologist (Hall C, Convention Center - 3rd Floor)

Description:
In a busy and demanding practice, Obstetricians Gynecologists need to stay updated and skillful about providing total care to woman and respond to their patients’ concerns about causes, prognosis and management of Female Sexual Dysfunction (FSD). Nowadays, FSD is a rapidly growing discipline that remains of major concern to the Obstetrician Gynecologists as the main providers of primary health care for women. This course, now offered for the 3rd time in Lebanon and the Region, aims to provide busy ObGyns with basic and essential knowledge to approach and diagnose cases presenting with sexual dysfunction, and to offer clinical skills for managing those cases and referring them when necessary.

Learning Objectives:
1. Become aware of the FSD classification and their clinical relevance
2. Acquire basic skills in clinical approach and history taking, physical exam/ pelvic exam in relation to FSD
3. Learn about diagnostic criteria and management strategies
4. Become aware of the various available types of FSD treatment utilization in clinical setting
5. Appreciate the importance of counseling and couple therapy

Course Director:
Faysal El Kak (Lebanon)

Program:
09:00 - 09:30 Female Sexual Dysfunction: Clinical Epidemiology
09:30 - 10:00 Clinic Approach To Fsd
10:00 - 10:30 Algorithms And Treatment Modalities
10h30 - 11h00 Coffee Break
11:00 - 11:45 Case of Hypoactive Sexual Desire Disorder (Interactive)
11:45 - 12:30 Case of Genitopelvic Pain Disorder (Interactive)
12:30 - 13:00 Role of Counseling and Psychotherapy
13:00 Feedback and Wrap Up
